

PERFORMANCE IN MOTION

 **pastorfrigor**
PERFORMANCE IN MOTION

GROUP

PERFORMANCE IN MOTION

Performance in motion. It is more than a statement. It is an idea that runs, lives and evolves. It is the silent force guiding every choice, every challenge and every innovation of the Pastorfrigor Group. A word in motion, expressing an identity built on excellence and on the constant training of performance – of products, people and vision. Performance in Motion is evolving quality, technology that anticipates the future, and a style that never stands still. It is the energy of a team that moves with agility in a constantly changing market, ready to overcome every limit with determination and passion.

Pastorfrigor is this: performance, in constant motion.

Performance in motion. È più di un'affermazione. È un'idea che corre, vive, si trasforma. È la forza silenziosa che guida ogni scelta, ogni sfida, ogni innovazione del Gruppo Pastorfrigor. Una parola in movimento, che racconta un'identità costruita sull'eccellenza e sull'allenamento costante delle performance: dei prodotti, delle persone, della visione. Performance in motion è qualità che si evolve, è tecnologia che anticipa il futuro, è stile che non si ferma mai. È l'energia di un team che si muove con agilità in un mercato in costante cambiamento, pronto a superare ogni limite con determinazione e passione.

Pastorfrigor è questo: performance, in continuo movimento.

Innovation in Motion since 1964

PERFORMANCE
IN MOTION

Innovazione in movimento dal 1964

Founded in 1964 by Bruno Pastorello, Pastorfrigor began as a small trading business and evolved into a global leader in commercial refrigeration. With the opening of the San Giorgio Monferrato plant, followed by the establishment of the headquarters in Terruggia, the joint venture in Slovakia, the design centre in Romania, and the acquisition of strategic companies, the Group has strengthened its product range, expertise and international presence. Today, the Group operates three production units, one R&D centre and employs over 200 people: a constantly evolving organisation, driven by a continuous commitment to pushing the boundaries of innovation, quality and efficiency. Performance in Motion is the guiding concept that transforms its history into tangible progress.

Fondata nel 1964 da Bruno Pastorello, Pastorfrigor parte da una piccola attività di commercio per evolversi in un leader globale nella refrigerazione commerciale. Con l'apertura dello stabilimento di San Giorgio Monferrato, poi la sede centrale a Terruggia, la joint-venture in Slovacchia, il centro progettazione in Romania, e l'acquisizione di aziende strategiche, il Gruppo ha consolidato prodotti, competenze e presenza internazionale. Oggi conta tre unità produttive, un centro R&S, oltre 200 collaboratori: una struttura in continuo movimento, costantemente orientata a spingere i limiti dell'innovazione, della qualità e dell'efficienza. Performance in Motion è il filo conduttore che trasforma la storia in progresso tangibile.

COLD PERFORMANCE

The precision of cooling, the power of technology

La precisione del freddo, la forza della tecnologia

Our refrigeration technology is designed to deliver maximum efficiency, precision and reliability. Cold Performance means constant temperature control, energy efficiency and high performance in all operating conditions. An advanced system that preserves product quality and optimises day-to-day store management.

La nostra tecnologia del freddo è progettata per garantire massima efficienza, precisione e affidabilità. Cold Performance significa controllo costante delle temperature, risparmio energetico e prestazioni elevate in ogni condizione. Un sistema evoluto che preserva la qualità dei prodotti e ottimizza la gestione quotidiana del punto vendita.

GROUP

STYLE PERFORMANCE

Form, Function, Performance

Forma, funzione, performance

Functional design, refined aesthetics, bespoke customisation. Style Performance is born from the fusion of form and function: every Pastorfrigor refrigerated counter is designed to integrate seamlessly into its surroundings, enhancing both the shopping experience and product presentation. When design is not just about beauty, but also about performance.

Design funzionale, estetica raffinata, personalizzazione sartoriale. Style Performance nasce dall'unione tra forma e funzione: ogni banco refrigerato Pastorfrigor è pensato per integrarsi armoniosamente negli spazi, valorizzando l'esperienza d'acquisto e l'esposizione dei prodotti. Quando il design non è solo bellezza, ma anche performance.

HUMAN PERFORMANCE

Passion and Know-how in Motion

Passione e know-how in movimento

The true engine of innovation is human capital. Human Performance represents the skills, passion and know-how that Pastorfrigor people bring into play every day. A close-knit, well-trained and constantly evolving team, capable of turning every challenge into an opportunity for growth.

Il vero motore dell'innovazione è il capitale umano. Human Performance è l'insieme di competenze, passione e know-how che le persone Pastorfrigor mettono in campo ogni giorno. Un team affiatato, formato e in costante aggiornamento, capace di trasformare ogni sfida in un'opportunità di crescita.
